

DR.RANJITSINH DISALE

Dr. Ranjitsinh Disale is the 2020 Global Teacher Prize winner, Harvard graduate, education policy expert, and former World Bank consultant. Known for introducing QR-coded textbooks used by over 50 million students, he is on a mission to empower 10,000 educators to transform classrooms and communities across India and beyond.

ABOUT ME

Ranjitsinh

Dr. Ranjitsinh Disale is an award-winning educator, policy advocate, and social innovator dedicated to transforming education through technology and inclusion. He became the first Indian teacher to receive the prestigious Global Teacher Prize 2020, often referred to as the "Nobel Prize for Teaching."

A graduate of Harvard University in Education Policy and Analysis, Dr. Disale has served as an education consultant to the World Bank and has spent over 15 years teaching in rural public schools in Maharashtra, India. His pioneering work in integrating technology into classrooms has helped bridge educational inequalities and improve learning outcomes for millions of students.

Dr. Disale is best known for introducing QR-coded textbooks, an innovation now used by more than 50 million students across India, enabling learners to access rich digital content directly from their textbooks. He is also a widely respected speaker, writer, and thought leader on education, technology, teacher empowerment, and policy reform.

Through his work, Dr. Disale strives to bridge the gap between policymakers, teachers, and students, ensuring that educational systems are designed with the voices and needs of learners at their center. His mission is simple yet ambitious: to create 10,000 transformative educators capable of changing millions of lives through the power of learning.
